CAREER SUMMARY:

Aspiring Data Analyst or Product/Project Manager with a strong foundation in computer science, data analytics, and web development. Skilled in data analysis, visualization, project management, Lens Studio, and UX design. Seeking opportunities to leverage my analytical and leadership skills in real-world data-driven solutions.

WORK EXPERIENCE:

UnSchool
Team Lead/UX Developer Intern | March 2023 - May 2023

- Led a team to develop website frameworks using Figma with a focus on User Experience. Managed marketing efforts,
- resulting in top intern recognition for April 2023.

Subway

Manager | February 2021 - June 2022

- Led recruitment, training, and management of staff.
- Increased sales by 15% through advertising efforts.

Sweet Charlies

Manager | June 2021 - November 2022

- Helped increase sales by 30% through effective advertising.
- Managed daily operations and trained staff in teamwork and leadership.

RELEVANT PROJECTS:

Snapchat Spectacles Lens – Mental Wellness App
Georgia Tech Hackathon | 24 November, 2024 - 26 November, 2024

- Developed an interactive mental health application for Snapchat Spectacles using Lens Studio. Integrated music and
- user interaction with the Spectacles Interaction Kit for a hands-free experience. Integrated hand tracking and showing
- proper acupressure points on hand through the spectacles.

Capstone Project - ADHD App
Project Manager | 24 Aug, 2024 - 8 Dec, 2024

- Designed and implemented a mobile app to assist individuals with ADHD using API integration for task management and reminders.
- Led UX development and project management.

GSU - CompanyZ UX/Database Project
Project Manager | Jan 2024 – May 2024

- Designed database schema, UI wireframes, and workflows.
- Improved system scalability and reduced data redundancy by 30%.

EDUCATION:

Bachelor of Science in Computer Science-Georgia State University | Aug 2023 - May 2025

- Project Manager/Mobile App Developer for Capstone project on ADHD using API integration.
- Dean's List, Summer 2024.

Associate of Science in Computer Science-Georgia State University | Aug 2021 - Jul 2023

- - Participated in multiple Hackathons.
- - Worked on company UI/UX design projects.
